Need to empower faculty and students to create and review video events?

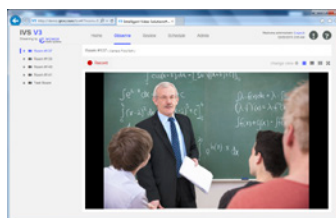

Valt is a turnkey hardware and software solution to help your organization leverage video to increase the quality of your educational programs. This easy-to-use software gives users the ability to quickly launch recordings, descriptively catalog them, and retrieve them with a simple browser based search engine, all without extensive administration or IT support.

SOLUTIONS

MEDICAL SIMULATIONS

Nursing, Physician, EMT Programs

TREATMENT SESSIONS

Speech Pathology, Counseling, Psychology Programs

PRESENTATIONS
